- I know that I will be able to use the internet in school, for a variety of reasons, if I use it responsibly. However, I understand that if I do not, I may not be allowed to use the internet at school.

Letter for parents/carers

Dear Parent/Carer

All pupils use computer facilities including Internet access as an essential part of learning, as required by the National Curriculum. Your child will have the opportunity to access a wide range of information and communication technology (ICT) resources. This includes access to:

- Computers, laptops and other digital devices
- Internet which may include search engines and educational websites
- Email
- Games consoles and other games based technologies
- Digital cameras, web cams and video cameras
- Recorders and Dictaphones
- Mobile Phones and Smartphone's

Elms School recognise the essential and important contribution that technology plays in promoting children's learning and development and offers a fantastic range of positive activities and experiences. However we also recognise there are potential risks involved when using online technology and therefore have developed online safety (e-Safety) policies and procedures alongside the schools safeguarding measures. (Elms School uses Lightspeed filtering approved by Local Authority).

The school takes responsibility for your child's online safety very seriously and, as such, we ensure that pupils are educated about safe use of technology and will take every reasonable precaution to ensure that pupils cannot access inappropriate materials whilst using school equipment. However no system can be guaranteed to be 100% safe and the school cannot be held responsible for the content of materials accessed through the internet and the school is not liable for any damages arising from use of the schools internet and ICT facilities.

Full details of the school's Acceptable Use Policy and online safety (e-Safety) policy are available on the school website (www.elmsschool.org) or on request.

We request that all parents/carers support the schools approach to online safety (e-Safety) by role modelling safe and positive online behaviour for their child and by discussing online safety with them whenever they access technology at home. Parents/carers can visit the school website's (www.elmsschool.org) for more information about the school's approach to online safety as well as to access useful links to support both you and your child in keeping safe online at home. Parents/carers may also like to visit www.thinkuknow.co.uk, www.childnet.com, www.nspcc.org.uk/onlinesafety, www.saferinternet.org.uk and www.internetmatters.org for more information about keeping children safe online

Whilst the school monitors and manages technology use in school we believe that children themselves have an important role in developing responsible online behaviours. In order to support the school in developing your child's knowledge and understanding about online safety, we request that you read the attached Acceptable Use Policy with your child and that you and your child discuss the content and return the attached slip. Hopefully, you will also find this Acceptable Use Policy provides you with an opportunity for conversations between you and your child about safe and appropriate use of the technology, both at school and at home.

Should you wish to discuss the matter further, please do not hesitate to contact the school online safety Coordinator Amanda Falluto The Designated Safeguarding Lead or myself.

(Additional Paragraph KS1/SEN)

We understand that your child is too young to give informed consent on his/ her own; however, we feel it is good practice to involve them as much as possible in the decision making process, and believe a shared commitment is the most successful way to achieve this.

Yours sincerely,
Headteacher

Letter for Staff

Dear

Social media can blur the definitions of personal and working lives, so it is important that all members of staff take precautions in order to protect themselves both professionally and personally online.

Be very conscious of both your professional reputation and that of the school when you are online. All members of staff are strongly advised, in their own interests, to take steps to ensure that their personal information and content is not accessible to anybody who does not or should not have permission to access it. All staff must also be mindful that any content shared online cannot be guaranteed to be "private" and could potentially be seen by unintended audiences which may have consequences including civil, legal and disciplinary action being taken. Ensure that your privacy settings are set appropriately (many sites have a variety of options to choose from which change regularly and may be different on different devices) as it could lead to your content accidentally being shared with others.

Be very careful when publishing any information, personal contact details, video or images etc online; ask yourself if you would feel comfortable about a current or prospective employer, colleague, child in your care or parent/carer, viewing or sharing your content. If the answer is no, then consider if it should be posted online at all. It is very important to be aware that sometimes content shared online, even in jest, can be misread, misinterpreted or taken out of context, which can lead to complaints or allegations being made. Don't be afraid to be yourself online but do so respectfully. All staff must be aware that as professionals, we must be cautious to ensure that the content we post online does not bring the school or our professional role into disrepute.

If you have a social networking account, it is advised that you do not to accept pupils (past or present) or their parents/carers as "friends" on a personal account. You may be giving them access to your personal information and allowing them to contact you inappropriately through unregulated channels. They may also be giving you access to their personal information and activities which could cause safeguarding concerns. Please use your work provided email address or phone number to contact children and/or parents – this is essential in order to protect yourself as well as the wider community. If you have a pre-existing relationship with a child or parent/carer that may compromise this or have any queries or concerns about this then please speak to the Online safety (e-Safety) Coordination/ Designated Safeguarding Lead – **Amanda Falluto**.

Documents called "Cyberbullying: Supporting School Staff", "Cyberbullying: advice for headteachers and school staff" and "Safer professional practise with technology" are available in the staff room to help you consider how to protect yourself online. Please photocopy them if you want or download the documents directly from www.childnet.com, www.e-safety.org.uk and www.gov.uk/government/publications/preventing-and-tackling-bullying. Staff can also visit or contact the Professional Online safety Helpline www.saferinternet.org.uk/about/helpline for more advice and information on online professional safety.

I would like to remind all staff of our Acceptable Use Policy and the importance of maintaining professional boundaries online. Failure to follow this guidance and the school policy could lead to disciplinary action, so it is crucial that all staff understand how to protect themselves online. Please speak to your line manager, the Designated Safeguarding Lead – **Amanda Falluto** or myself if you have any queries or concerns regarding this.

Yours sincerely,

Headteacher

Additional content for staff regarding online participation on behalf the School

The principles and guidelines below set out the standards of behaviour expected of you as an employee of the school. If you are participating in online activity as part of your capacity as an employee of the school then we request that you:

- Be professional and remember that you are an ambassador for the school. Disclose your position but always make it clear that you do not necessarily speak on behalf of the school.
- Be responsible and honest at all times and consider how the information you are publishing could be perceived
- Be credible, accurate, fair and thorough.
- Always act within the legal frameworks you would adhere to within school, including libel, defamation, confidentiality, copyright, data protection as well as equalities laws.
- Be accountable and do not disclose information, make commitments or engage in activities on behalf of the school unless you are authorised to do so.
- Always inform your line manager, the designated safeguarding lead and/or the head teacher of any concerns such as criticism or inappropriate content posted online.

As a professional organisation with responsibility for children's safeguarding it is important that all staff take all possible and necessary measures to protect data and information systems from infection, unauthorised access, damage, loss, abuse and theft. All members of staff have a responsibility to use the school's computer system in a professional, lawful, and ethical manner. To ensure that members of staff are fully aware of their professional responsibilities when using Information Communication Technology and the school systems, they are asked to read and sign this Acceptable Use Policy.

This is not an exhaustive list and all members of staff are reminded that ICT use should be consistent with the school ethos, other appropriate school policies, relevant national and local guidance and expectations, and the Law.

1. I understand that Information Systems and ICT include networks, data and data storage, online and offline communication technologies and access devices. Examples include laptops, mobile phones, tablets, digital cameras, email and social media sites.
2. School owned information systems must be used appropriately. I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.
3. I understand that any hardware and software provided by my workplace for staff use can only be used by members of staff and only for educational use. To prevent unauthorised access to systems or personal data, I will not leave any information system unattended without first logging out or locking my login as appropriate.
4. I will respect system security and I will not disclose any password or security information. I will use a 'strong' password (A strong password has numbers, letters and symbols, with 8 or more characters)
5. I will not attempt to install any purchased or downloaded software, including browser toolbars, or hardware without permission from the system manager.
6. I will ensure that any personal data of pupils, staff or parents/carers is kept in accordance with the Data Protection Act 1998. This means that all personal data will be obtained and processed fairly and lawfully, only kept for specific purposes, held no longer than necessary and will be kept private and secure with appropriate security measures in place, whether used in the workplace, hosted online (only within countries or sites with suitable data protection controls that meet the EU and UK regulations) or accessed remotely (e.g. via VPN). Any data which is being removed from the school site (such as via email or on memory sticks or CDs) will be encrypted or password protected. Any images or videos of pupils will only be used as stated in the school image use policy and will always take into account parental consent.
7. I will not keep or access professional documents which contain school-related sensitive or personal information (including images, files, videos, emails etc.) on any personal devices (such as laptops, digital cameras, mobile phones), unless they are suitably secured and encrypted. I will protect the devices in my care from unapproved access or theft. However in exceptional circumstances I may use my phone to take pictures of offsite activities providing I upload all the photos on my return to school and delete them from my own device straight away.
8. I will not store any personal information on the school computer system including any school laptop or similar device issued to members of staff that is unrelated to school activities, such as personal photographs, files or financial information.
9. I will respect copyright and intellectual property rights.
10. I have read and understood the school online safety (e-Safety) policy which covers the requirements for safe ICT use, including using appropriate devices, safe use of social media websites and the supervision of pupils within the classroom and other working spaces.

11. I will report all incidents of concern regarding children's online safety to the Designated Safeguarding Lead **Amanda Falluto** as soon as possible. I will report any accidental access, receipt of inappropriate materials, filtering breaches or unsuitable websites to Designated Safeguarding Lead **Amanda Falluto** as soon as possible.
12. I will not attempt to bypass any filtering and/or security systems put in place by the school. If I suspect a computer or system has been damaged or affected by a virus or other malware, or if I have lost any school related documents or files, then I will report this to the ICT Manager – **Sharon Roles** as soon as possible.
13. My electronic communications with pupils, parents/carers and other professionals will only take place within clear and explicit professional boundaries and will be transparent and open to scrutiny at all times. All communication will take place via school approved communication channels e.g. via a school provided email address or telephone number and not via personal devices or communication channels e.g. personal email, social networking or mobile phones. Any pre-existing relationships or situations that may compromise this will be discussed with the Senior Leadership team and/or Head Teacher.
14. I will ensure that my online reputation and use of ICT and information systems are compatible with my professional role, whether using school or personal systems. This includes the use of email, text, social media/networking, gaming and any other devices or websites. I will take appropriate steps to protect myself online and will ensure that my use of ICT and internet will not undermine my professional role, interfere with my work duties and will be in accordance with the school AUP and the Law.
15. I will not create, transmit, display, publish or forward any material that is likely to harass, cause offence, inconvenience or needless anxiety to any other person, or anything which could bring my professional role, the school, or the County Council, into disrepute.
16. I will promote online safety with the pupils in my care and will help them to develop a responsible attitude to safety online, system use and to the content they access or create.
17. If I have any queries or questions regarding safe and professional practise online either in school or off site, then I will raise them with the Designated Safeguarding Lead **Amanda Falluto** or the Head Teacher.
18. I understand that my use of the school information systems (including any devices provided by the school), school Internet and school email may be monitored and recorded to ensure the safety of children and staff and to ensure policy compliance. This monitoring will be proportionate and will take place in accordance with data protection, privacy and human rights legislation.

The School may exercise its right to monitor the use of information systems, including Internet access and the interception of emails in order to monitor policy compliance. Where it believes unauthorised and/or inappropriate use of the schools information system or unacceptable or inappropriate behaviour may be taking place, the School will invoke its disciplinary procedure. If the school suspects that the school system may be being used for criminal purposes then the matter will be brought to the attention of the relevant law enforcement organisation.

I have read and understood and agree to comply with the Staff Acceptable Use Policy.

Wi-Fi Acceptable Use Policy

For those using school Wi-Fi

Schools/settings may wish to use a paper or electronic AUP for guest access of Wi-Fi by members of the community. Schools may choose to require that visitors agree to an on screen electronic AUP as part of the process of accessing the Wi-Fi. This template is provided for schools to adapt and use as appropriate.

As a professional organisation with responsibility for children's safeguarding it is important that all members of the school community are fully aware of the schools boundaries and requirements when using the school Wi-Fi systems, and take all possible and necessary measures to protect data and information systems from infection, unauthorised access, damage, loss, abuse and theft. This is not an exhaustive list and all members of the school community are reminded that ICT use should be consistent with the school ethos, other appropriate policies and the Law.

Please be aware that the school will not be liable for any damages or claims of any kind arising from the use of the wireless service. The School takes no responsibility for the security, safety, theft, insurance and ownership of any device used within the School premises that is not the property of the School.

The school provides Wi-Fi for the school community and allows access for education use only. The School wi-fi password is not provided to the pupils of Elms school at anytime

The use of ICT devices falls under Elms school's Acceptable Use Policy, online safety (e-Safety) policy and behaviour policy which all students/staff/visitors and volunteers must agree to, and comply with.

1. The school reserves the right to limit the bandwidth of the wireless service, as necessary, to ensure network reliability and fair sharing of network resources for all users.
2. School owned information systems, including Wi-Fi, must be used lawfully and I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.
3. I will take all practical steps necessary to make sure that any equipment connected to the schools service is adequately secure (such as up-to-date anti-virus software, systems updates).
4. The school's wireless service is not secure, and the school cannot guarantee the safety of traffic across it. Use of the school's wireless service is done at my own risk. By using this service, I acknowledge that security errors and hacking are an inherent risk associated with any wireless network. For that reason, I expressly agree that I knowingly assume such risk, and further agree to hold the school harmless from any claim or loss arising out of, or related to, any such instance of hacking or other unauthorized use or access into my computer or device.
5. The school accepts no responsibility for any software downloaded and/or installed, e-mail opened, or sites accessed via the school's wireless service's connection to the Internet. Any damage done to equipment for any reason including, but not limited to, viruses, identity theft, spyware, plug-ins or other Internet-borne programs is my sole responsibility; and I indemnify and hold harmless the school from any such damage.
